INTRODUCTION

This compilation was originally planned as Part II of a history of Atlanta University. In the actual development of the work, however, this second part has proceeded more rapidly than the other. It is therefore published first, as a general catalogue. It is earnestly hoped that it will be possible to publish the history proper in 1919, the year which will complete fifty years of actual school work on the part of Atlanta University.

Thanks are due to many for valued assistance in this task. Especial mention should be made of the foundation work done at my request, in compiling a list of graduates and advanced students, by Mrs. Ada Hawes Hinton (1901), while she was a college student; also of the painstaking and efficient services, by way of direct preparation of this catalogue, of Miss Lucile Mack (1918) and Mrs. Cora Hardy Adams.

In such a compilation as this, errors are inevitable. Correction of these, and the furnishing of additional information, will be welcomed.

MYRON W. ADAMS.

GRADUATES AND ADVANCED STUDENTS

College and Normal—Alphabetically Arranged

See pages 13 and 17 for statements indicating whose names are recorded. The names of graduates are in larger type, followed by the names of others in smaller type. In addition to the dates which show the facts concerning graduation or attendance here, there is also given when known: non-professional degrees earned elsewhere; the characteristic occupation or occupations; the vital statistics; the address. In the case of women the transfer of occupation, upon marriage, from "teacher" to "homemaker" is not noted. In some cases the residence address is given, when distinct from the business or teaching address. The abbreviation "q.v." indicates "whom see."
